

Spellings

Week 15

Parent Hack!

-ly is a Y3/4 suffix.

A suffix is a letter/group of letters at the end of a word which change its word class.

-ly creates an **adverb**.

-ly starts with a consonant letter, so it is added straight on to most root words.

Exceptions!

If the root word ends in -y with a consonant letter before it, the y is changed to i, but only if the root word has more than one syllable e.g. angry-angrily

If the root word ends with -le, the -le is changed to -ly.

If the root word ends with -ic, -ally is added (except in the word publicly).

Look 	Read 	Cover 	Write 	Check 
completely	completely			
finally	finally			
usually	usually			
happily	happily			
angrily	angrily			
gently	gently			
simply	simply			
basically	basically
